The Aeronautical Journal of the Royal Aeronautical Society

INCORPORATING THE INSTITUTION OF AERONAUTICAL ENGINEERS AND THE HELICOPTER ASSOCIATION OF GREAT BRITAIN

VOLUME LXXXVII

JANUARY—DECEMBER 1983

The following is based on the indexing of the RAeS Publications Index 1897-1977, published by the Society.

AERODYNAMICS
- Aerodynamics, L. C. Squire, pp 229-232 (June/July).
- An analytical study of the induced drag of canard-wing-tail aircraft configurations with various levels of static stability, G. F. Butler, pp 293-300 (Oct.).
- The stiffness of transport wings for minimum weight, H. Hitch, p 104 (March).

AEROFOILS
- Application of internal singularity distribution approach to multi-element aerofoil problems, G. Bandyopadhyay, B. K. Singh and B. C. Basu, pp 189-190 (May).
- Numerical solutions for unsteady aerofoils using internal singularity distributions, G. Bandyopadhyay and B. C. Basu, pp 105-108 (March).

AIRSHIPS
- Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavylift aircraft, J. D. Delaurier, W. D. McKinney, W. L. Kung, G. M. Green and H. S. B. Scholaert, pp 119-131 (April).

AIR TRANSPORT
- Choice of cabin capacity, D. G. Yeomans, pp 95-98 (March).
- Cost control of aircraft manufacture — a modern approach, E. T. Jackson, pp 9-20 (Jan.).
- Fleet planning models, J. C. Trevett, pp 88-94 (March).
- Flight management systems and data links, T. W. Hendrickson, pp 52-67 (Feb.).
- Forecasting in air transport — a critical review of the techniques available, A. N. Hofton, pp 85-87 (March).
- MIL-STD-1553B data bus and the RAE flight evaluation programme, I. Moir, pp 268-269 (Aug./Sept.).
- The cost definition phase of a new commercial aircraft programme, W. G. Loeken, pp 68-75 (Feb.).

AL-ANI, S. K. and JOHNSON, E. A.
- Heavy gas mixtures for wind tunnel use, pp 237-240 (June/July).

AVIONICS
- Flight mechanics, avionics and space, G. J. Hancock, pp 223-225 (June/July).

BANDYOPADHYAY, G. and BASU, B. C.
- Numerical solutions for unsteady aerofoils using internal singularity distributions, pp 105-108 (March).

BANDYOPADHYAY, G., SINGH, B. K. and BASU, B. C.
- Application of internal singularity distribution approach to multi-element aerofoil problems, pp 189-190 (May).

BAKER, G. and PAVLOVIC, M. N.
- Rectangular plates compressed by a series of in-plane loads: stability and stress distribution, pp 183-188 (May).

BASS, R. M.
- An historical review of propeller developments, pp 255-267 (Aug./Sept.)

BASU, B. C., BANDYOPADHYAY, G. and SINGH, B. K.
- Application of internal singularity distribution approach to multi-element aerofoil problems, pp 189-190 (May).

BARTHOLOMEW, P. and SNELL, M. B.
- Initial design of stringer stiffened bend boxes using geometric programming, pp 21-25 (Jan.).

BASU, B. C. and BANDYOPADHYAY, G.
- Numerical solutions for unsteady aerofoils using internal singularity distributions, pp 105-108 (March).

BEATTIE, J. A. C.
- A true air speed sensor for miniature unmanned aircraft, pp 173-175 (May).

BEENY, M. A.
- A review of UK developments in aircraft fuel management systems, pp 301-320 (Oct.).

BOOK REVIEWS — AUTHORS
- Brewis, D. M. (Editor), Surface Analysis and Pretreatment of Plastics and Metals, p 241 (June/July).
- Clément, P. L., Montgolfières (Hot-Air Balloons). Translated by Alexander Ballantyne, p 241 (June/July).
- Countryman, B., R100 in Canada, p 109 (March).
- Diederiks-Verschoor, Ph.I.H., An Introduction to Air Law, p 328 (Oct.).
- Dowling, A. P. and Ffowcs Williams, J. E., Sound and Sources of Sound, pp 361-362 (Nov.).
- Ffowcs Williams, J. E. and Dowling, A. P., Sound and Sources of Sound, p 361 (Nov.).
- Gillispie, C. C., The Montgolfier Brothers and the Invention of Aviation, 1783-1784, p 405 (Dec.).
- Harker, R. J., Generalised Methods of Vibration Analysis, p 404 (Dec.).
- Holister, G. S. (Editor), Developments in Composite Materials — 2, p 31 (Jan.).
- Houghton, E. L. and Carruthers, N. B., Aerodynamics for Engineering Students — 3rd edition, pp 31-32 (Jan.).
- Kinloch, A. J. (Editor), Durability of Structural Adhesives, p 404 (Dec.).
- Koppes, C. K., JPL and the American Space Program: a History of the Jet Propulsion Laboratory, p 286 (Aug./Sept.).
- Lloyd, E. and Tye, W., Systematic Safety; Safety Assessment of Aircraft Systems, p 76 (Feb.).
- Margo, R. D., Aviation Insurance: the Law and Practice of Aviation Insurance Including Hovercraft and Satellite Insurance, pp 404-405 (Dec.).
- Mead, P., The Eye in the Air; History of Air Observation and Reconnaissance for the Army 1785-1945, p 242 (June/July).
- Milberry, L., The Avro CF-100, p 241 (June/July).
- Nica, A., Mechanics of Aerospace Materials. Materials Science Monographs — 9, p 109 (March).
- Pallett, E. H. J., Automatic Flight Control — 2nd edition, p 361 (Nov.).
- Sheldon, R. P., Composite Polymeric Materials, p 31 (Jan.).
- Shevell, R. S., Fundamentals of Flight, p 286 (Aug./Sept.).
- Wiley, R. G., Electronic Intelligence: the Analysis of Radar Signals, p 157 (April).

BOOK REVIEWS — TITLES
- Aerodynamics for Engineering Students — 3rd edition, E. L. Houghton and N. B. Carruthers, pp 31-32 (Jan.).
- An introduction to Air Law, I.H.Ph. Diederiks-Verschoor, p 328 (Oct.).
- Automatic Flight Control — 2nd edition, E. H. J. Pallett, p 361 (Nov.).
- Aviation Insurance: the Law and Practice of Aviation Insurance Including Hovercraft and Satellite Insurance, R. D. Margo, pp 404-405 (Dec.).
- Composite Polymeric Materials, R. P. Sheldon, p 31 (Jan.).
- Developments in Composite Materials — 2, G. S. Holister (Editor), p 31 (Jan.).
- Durability of Structural Adhesives, A. J. Kinloch (Editor), p 404 (Dec.).
- Electronic Intelligence: the Analysis of Radar Signals, R. G. Wiley, p 157 (April).
- Fundamentals of Flight, R. S. Shevell, p 286 (Aug./Sept.).
- Generalised Methods of Vibration Analysis, R. J. Harker, p 404 (Dec.).
- JPL and the American Space Program: A History of the Jet Propulsion Laboratory, C. K. Koppes, p 286 (Aug./Sept.).
- Mechanics of Aerospace Materials. Materials Science Monographs — 9, A. Nica, p 109 (March).
- Montgolfières (Hot-Air Balloons). Translated by Alexander Ballantyne, P. L. Clément, p 241 (June/July).
- R100 in Canada, B. Countryman, p 109 (March).
- Sound and Sources of Sound, A. P. Dowling and J. E. Ffowcs.
- Surface Analysis and Pretreatment of Plastics and Metals, D. M. Brewis (Editor), p 241 (June/July).
- Systematic Safety; Safety Assessment of Aircraft Systems, E. Lloyd and W. Tye, p 76 (Feb.).
- The Avro CF-100, L. Milberry, p 241 (June/July).
- The Eye in the Air; History of Air Observation and Reconnaissance for the Army 1785-1945, P. Mead, p 242 (June/July).
- The Montgolfier Brothers and the Invention of Aviation, 1783-1784, C. C. Gillispie, p 405 (Dec.).

BOUNDARY LAYERS
- On upstream influence in shock wave turbulent boundary layer interaction, D. S. Dolling, pp 324-327 (Oct.).

BRADSHAW, P. and MOKHTAR, S.
- Longitudinal vortices in wind tunnel wall boundary layers, pp 233-236 (June/July).

BURLEIGH, C. D. and FIELDING, Dr. J. P.
A combat aircraft mission readiness model, pp 398-403 (Dec.).

BUTLER, G. F.
An analytical study of the induced drag of canard-wing-tail aircraft configurations with various levels of static stability, pp 293-300 (Oct.).

CAMPION, M. C.
A note on the representation of bimodal distributions, pp 355-356 (Nov.).

CHEESEMAN, Prof. E. M.
Noise research, pp 210-218 (June/July).

CHEVIS, R. W. and GRANT, I. J.
A family of small low cost turbines for unmanned vehicle systems, pp 199-209 (June/July).

CLEMENTS, R. R., WRIGHT, J. H. and TONKIN, S. W.
Digital simulation of counterspun nutation damper operation under non-ideal operating conditions, pp 277-285 (Aug./ Sept.).

COMPUTERS
A combat aircraft mission readiness model, C. D. Burleigh and Dr. J. P. Fielding, pp 398-403 (Dec.).
A note on the representation of bimodal distributions, M. C. Campion, pp 355-356 (Nov.).
Developments in test software philosophy and techniques, D. J. K. Wise, pp 149-153 (April).

CUNDY, J.
Saving fuel with the wide-chord fan, pp 272-276 (Aug./Sept.).

DAVIES, G. A. O.
Structures and materials, pp 219-223 (June/July).

DeLAURIER, J. D., McKINNEY, W. D., KUNG, W. L., GREEN, G. M. and SCHOLAERT, H. S. B.
Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavy-lift aircraft, pp 119-131 (April).

DENNIS, D. R.
Recent advances in parachute technology, pp 333-342 (Nov.).

DESIGN
Initial design of stringer stiffened bend boxes using geometric programming, M. B. Snell and P. Bartholomew, pp 21-25 (Jan.).
The design of a 'Jet Catcher', K. G. Winter and L. F. East, pp 26-30 (Jan.).

DOLLING, D. S.
On upstream influence in shock wave turbulent boundary layer interaction, pp 324-327 (Oct.).

EAST, L. F. and WINTER, K. G.
The design of a 'Jet Catcher', pp 26-30 (Jan.).

ENGINES : TURBINES
A family of small low cost turbines for unmanned vehicle systems, R. W. Chevis and I. J. Grant, pp 199-209 (June/July).

EUROCAE
Development of European Avionics Standards — 20th Anniversary of EUROCAE, T. J. McWiggan, pp 270-271 (Aug./Sept.).

FIELDING, Dr. J. P. and BURLEIGH, C. D.
A combat aircraft mission readiness model, pp 398-403 (Dec.).

FUELS AND COMBUSTION
A review of UK developments in aircraft fuel management systems, M. A. Beeny, pp 301-320 (Oct.).
Saving fuel with the wide-chord fan, J. Cundy, pp 272-276 (Aug./Sept.).

GOUDIE, S. H.
A simple method for the derivation of isolated and installed store loads, pp 343-347 (Nov.).

GRANT, I. J. and CHEVIS, R. W.
A family of small low cost turbines for unmanned vehicle systems, pp 199-209 (June/July).

GREEN, G. M., SCHOLAERT, H. S. B,. DeLAURIER, J. D., McKINNEY, W. D. and KUNG, W. L.
Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavy-lift aircraft, pp 119-131 (April).

HANCOCK, G. J.
Flight mechanics, avionics and space, pp 223-225 (June/July).

HART, Professor Clive
A directory of heavier-than-air flying machines in Western Europe, 850BC-1783AD, pp 1-8 (Jan.).

HENDRICKSON, T. W.
Flight management systems and data links, pp 52-67 (Feb.).

HISTORY
A directory of heavier-than-air flying machines in Western Europe, 850BC-1783AD, Professor Clive Hart, pp 1-8 (Jan.).
An historical review of propeller developments, R. M. Bass, pp 255-267 (Aug./ Sept.).

HITCH, H.
The stiffness of transport wings for minimum weight, p 104 (March).

HOFTON, A. N.
Forecasting in air transport — a critical review of the techniques available, pp 85-87 (March).

HOWE, Prof. D.
Aircraft that fly backwards? The application for forward swept wings, pp 321-323 (Oct.).

INSTRUMENTATION
A true air spoed sensor for miniature unmanned aircraft, J. A. C. Beattie, pp 173-175 (May).

JACKSON, E. T.
Cost control of aircraft manufacture — a modern approach, pp 9-20 (Jan.).

JOHNSON, E. A. and AL-ANI, S. K.
Heavy gas mixtures for wind tunnel use, pp 237-240 (June/July).

KUNG, W. L., GREEN, G. M., SCHOLAERT, H. S. B., DeLAURIER, J. D. and McKINNEY, W. D.
Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavy-lift aircraft, pp 119-131 (April).

LANCHESTER MEMORIAL LECTURE
Vortices and turbulence, Prof. G. M. Lilley, pp 371-393 (Dec.).

LASERS
Laser strike, R. F. Mackrill, pp 176-182 (May).

LAWRENCE, Gp. Capt. G. F., WEBBER, Colonel S. T. and WITCOMBE, Capt. P. J.
Testability — a military users point of view, pp 132-139 (April).

LILLEY, Prof. G. M.
Vortices and turbulence, pp 371-393 (Dec.).

LOEKEN, W. G.
The cost definition phase of a new commercial aircraft programme, pp 68-75 (Feb.).

McKINNEY, W. D., KUNG, W. L., GREEN, G. M., SCHOLAERT, H. S. B. and DeLAURIER, J. D.
Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavy-lift aircraft, pp 119-131 (April).

McWIGGAN, T. J.
Development of European Avionics Standards — 20th Anniversary of EUROCAE, pp 270-271 (Aug./Sept.).

MACKRILL, R. F.
Laser strike, pp 176-182 (May).

MOIR, I.
MIL-STD-1553B data bus and the RAE flight evaluation programme, pp 268-269 (Aug./Sept.).

MOKHTARI, S. and BRADSHAW, P.
Longitudinal vortices in wind tunnel wall boundary layers, pp 233-236 (June/July).

MOLYNEUX, W. G.
A reconsideration of the tail-wheel in an actively controlled undercarriage management system, pp 353-354 (Nov.).
A vectored-thrust rotor for helicopter anti-torque applications, pp 357-360 (Nov.).
Observations on the highly coned propeller, pp 394-397 (Dec.).

NOISE
Noise research, Prof. E. M. Cheeseman, pp 210-218 (June/July).

O'CONNOR, P. D. T.
Reliability testing for G W systems, pp 154-156 (April).

PARACHUTES
Recent advances in parachute technology, D. R. Dennis, pp 333-342 (Nov.).

PAVLOVIC, M. N. and BAKER, G.
Rectangular plates compressed by a series of in-plane loads: stability and stress distribution, pp 183-188 (May).

PHOTOGRAPHS

Aerofoils
Aerofoil with density fringes around the leading edge in a simple blade section, Cover and p 230 (June/July).

Aircraft
BAe 125-Series 800, Cover (Aug./Sept.).
BAe 748, p 268 (Aug./Sept.).
Bell XV-15 TiltRotor, Cover (March).
Bell XV-15 TiltRotor (in transition from hover to aircraft mode), p 99 (March).
Bell XV-15 TiltRotor (using nap-of-the-earth tactics to avoid detection), p 100 (March).
Bell XV-15 TiltRotor (in aircraft mode), p 101 (March).
Bell XV-15 TiltRotor (landing near the Pentagon), p 102 (March).

Boeing 757 — a full scale mock-up, p 73 (Feb.).
Boeing 757 being rolled-out at Renton, p 74 (Feb.).
Boeing 757 in BA colours, p 75 (Feb.).
Britannia, p 166 (May).
Canberra, p 180 (May).
Concorde, p 166 (May).
Hansa HFB 320 executive jet, Cover (Oct.).
Magnus Aerospace LTA 20-1 prototype aircraft, Cover (April).
Shorts 360, Cover (Jan.).
Tornado, p 165 (May).
Tornado, p 180 (May).
Tornado with laser, p 181 (May).
Wessex, p 165 (May).
Westland 30, Cover (May).

Airships
Magnus Aerospace LTA 20-1 prototype to a one-eighth scale.
Magnus airship wind tunnel model, p 121 (April).
Magnus airship wind tunnel model and balance, p 121 (April).

Boundary Layers
Boundary layer showing turbulent flow, p 231 (June/July).
Jet catcher used with Boundary Layer Tunnel, p 27 (Jan.).
Oblique transverse sections of a turbulent boundary layer, p 387 (Dec.).
Structure of a turbulent boundary layer, p 383 (Dec.).
Sub-layer of a turbulent boundary layer, p 384 (Dec.).

Computers
Visual Display Unit and terminal, p 11 (Jan.).

Engines: Blades
535E4 engine's wide-chord fan blade, p 275 (Aug./Sept.).
Blade stresses in operating conditions, p 273 (Aug./Sept.).
High-cycle fatigue testing of a wide-chord fan blade, p 274 (Aug./Sept.).
Testing of the 535E4 engine's wide-chord fan, p 275 (Aug./Sept.).

Engines: Turbines
Axial turbine, NPT 301, p 204 (June/July).
Bearing mount spring fingers, NPT 151, p 205 (June/July).
Centrifugal fuel pump impeller casting NPT151, p 207 (June/July).
Combustor flame tube, NPT 301, p 205 (June/July).
Compressor impeller, NPT 301, p 203 (June/July).
2·5 kw Homopolar alternator and PCU, p 206 (June/July).
NPT 151 turbojet of 150 lbf sist, p 202 (June/July).
NPT 301 components, p 202 (June/July).
NPT 301 turbojet of 300 lbf sist, p 202 (June/July).
Prototype NPT 151 turbojet installed in NGTE altitude chamber, p 208 (June/July).
Radial diffuser, NPT 301, p 204 (June/July).
Radial turbine, NPT 151, p 205 (June/July).

Fuel systems
Components of fuel gauging system for Sea Vixen flight trials, p 309 (Oct.).
Flight display (Sea Vixen), p 308 (Oct.).
Laboratory display, p 308 (Oct.).

Lasers
Circuit pattern machined by laser light, p 179 (May).
Ferranti target marker, p 182 (May).
Laser annealing as an aid to ion implantation (in the area of fabrication), p 179 (May).
Laser being fitted in the bottle nose at the front of the Harrier, p 181 (May).
Laser being fitted in the nose of the Jaguar, p 181 (May).
Laser being fitted on the underside of the Tornado, p 181 (May).
Laser being fitted to the Canberra, p 181 (May).
Laser guided bombs, p 182 (May).
Laser performing micro-machining and welding operations, p 179 (May).
Laser ranger with stabilised head, p 181 (May).
Ruby laser (used to weld silicone chips to inter-connecting lands), p 179 (May).
Ruby laser beam drilling a hole through copper (as seen by high speed camera), p 180 (May).
Section through laser surface melt, p 223 (June/July).

Miscellaneous
F. W. Lanchester in 1933, p 388 (Dec.).
Kaspar Mohr's flight — eighteenth century painting, ca 1620, p 1 (Jan.).
Portrait of F. W. Lanchester in 1945, p 388 (Dec.).
Schematic representation of Besnier's oscillating wings, p 2 (Jan.).
Tito Livio Burattini's projected flying machine — a sketch, 1647-48, p 1 (Jan.).

Noise
Installation of anti-sound unit in the exhaust stack, p 212 (June/July).
Rotor mounted in the acoustic tunnel, p 212 (June/July).
Novel outlet guide vane, p 217 (June/July).

Ornithopters
Carl Friedrich Meerwein's ornithopter of 1781, p 2 (Jan.).

Parachutes
Cruciform parachute, p 334 (Nov.).
Emergency escape parachute, p 334 (Nov.).
Gliding ram air parachute, p 334 (Nov.).
High performance ram air gliding parachute, Cover (Nov.).
Paratroop parachute, p 334 (Nov.).

Propellers
F. W. Lanchester with model of self-propelled aeroplane in 1894, p 371 (Dec.).
Hele-Shaw Beacham airscrew of 1928, p 261 (Aug./Sept.).

Solar Granulation
Comparison between the solar granulation and a laboratory convection pattern, p 372 (Dec.).

Space and spacecraft
Space Shuttle Orbiter Columbia, Cover (Feb.).
Space Shuttle Orbiter/Spacelab — a cut-away view, p 40 (Feb.).
Payload specialist candidate undergoing exercise stress tests, p 42 (Feb.).
Payload specialist candidate being interviewed by Science Panel, p 42 (Feb.).
Payload specialist discussing the loading procedure of the wide field camera, p 43 (Feb.).
Recording of electocardiogram signals by the attachment of electrodes, p 43 (Feb.).
Grille Spectrometer under test, p 43 (Feb.).
Microwave Remote Sensing Experiment, p 44 (Feb.).
Detector system for spectroscopy in X-ray astronomy, p 44 (Feb.).
Setting up of PICPAB in the airlock of the Spacelab simulator at MSFC, p 45 (Feb.).
Material Sciences Double Rack (MSDR), p 45 (Feb.).
Mirror Heating Facility of the MSDR, p 45 (Feb.).
Helmet used in vestibular investigations, p 46 (Feb.).
SL-1 payload location on pallet, p 48 (Feb.).
FSLP integration in the Integration Hall at ERNO, Bremen, p 49 (Feb.).
Activities in the High Bay Area of the O&C building at KSC, p 49 (Feb.).

Testing
Westland benchmark test, p 220 (June/July).

Turbulence
Contours of u-component turbulent velocity fluctuations at $y^+ = 6{\cdot}26$, p 381 (Dec.).
Frames of cine film of hydrogen bubble flow visualisation of 50 mm diameter water jet at two Reynolds Numbers showing vortex coalescence and transition to turbulence, p 376 (Dec.).
St. Helens Volcano in 1980, p 373 (Dec.).
View looking upstream of a jet — development of mixing region, p 376 (Dec.).

Vortices
Trailing vortex from a rectangular wing (Head 1982), p 373 (Dec.).
Vortex above a delta wing at $\alpha = 20°$ (Werlé 1963), p 373 (Dec.).

Wind Tunnels
Wind tunnel balance and model, p 121 (April).
Wind tunnel model of an airship, p 121 (April).

PROPELLERS
An historical review of propeller developments, R. M. Bass, pp 255-267 (Aug./Sept.).
Observations on the highly coned propeller, W. G. Molyneux, pp 394-397 (Dec.).

PROPULSION
Advanced propulsion control — a total system view, P. H. Young, pp 165-172 (May).

RESEARCH
Contribution to RAeS discussion evening, A. D. Young, pp 225-228 (June/July).

ROTORCRAFT
A vectored-thrust rotor for helicopter anti-torque applications, W. G. Molyneux, pp 357-360 (Nov.).
Military potential of TiltRotor aircraft, T. Thomason, pp 99-103 (March).

ROWE, N. E., MEDALS PAPERS
Laser strike. R. F. Mackrill. pp 176-182 (May).

SCHOLAERT, H. S. B., DeLAURIER, J. D., McKINNEY, W. D., KUNG, W. L. and GREEN, G. M.
Preliminary report on the engineering development of the Magnus Aerospace Corp. LTA 20-1 heavy-lift aircraft, pp 119-131 (April).

SHAPLAND, D. J.
The first spacelab payload (FSLP), pp 39-51 (Feb.).

SIMULATION
Digital simulation of counterspun nutation damper operation under non-ideal operating conditions, R. R. Clements, J. H. Wright and S. W. Tonkin, pp 277-285 (Aug./Sept.).

SINGH, B. K., BASU, B. C. and BANDYOPADHYAY, G.
Application of internal singularity distribution approach to multi-element aerofoil problems, pp 189-190 (May).

SNELL, M. B. and BARTHOLOMEW, P.
Initial design of stringer stiffened bend boxes using geometric programming, pp 21-25 (Jan.).

SPACE AND SPACECRAFT
Flight mechanics, avionics and space, G. J. Hancock, pp 223-225 (June/July).
The first spacelab payload (FSLP), D. J. Shapland, pp 39-51 (Feb.).

SOUAHI, A.
Assessment of certain merits of FSW and effect of the sign of the sweep angles on the stressing of a wing structure, pp 348-351 (Nov.).

SQUIRE, L. C.
Aerodynamics, pp 229-232 (June/July).

STRUCTURES
Rectangular plates compressed by a series of in-plane loads: stability and stress distribution, G. Baker and M. N. Pavlovic, pp 183-188 (May).

Structures and Materials, G. A. O. Davies, pp 219-223 (June/July).

SYMPOSIA
Discussion on Universities — Have They a Role in Aeronautical Research? pp 210-232 (June/July).
Symposium on Planning Airline Fleet Composition, pp 85-98 (March).
Symposium on Testing for Space and Weapon Products, pp 132-156 (April).
Symposium on the Performance of the Airship in Flight, pp 119-131 (April).

TESTING
Developments in test software philosophy and techniques, D. J. K. Wise, pp 149-153 (April).

THOMASON, T.
Military potential of TiltRotor aircraft, pp 99-103 (March).

TONKIN, S. W., CLEMENTS, R. R. and WRIGHT, J. H.
Digital simulation of counterspun nutation damper operation under non-ideal operating conditions, pp 277-285 (Aug./Sept.).

TREVETT, J. C.
Fleet planning models, pp 88-94 (March).

UNDERCARRIAGES
A reconsideration of the tail-wheel in an actively controlled undercarriage management system, W. G. Molyneux, pp 352-354 (Nov.).

VAUGHAN, T. G. and WARD, C. F. J.
Development of methods of calibration and testing gyroscopic instruments for GW applications, pp 139-148 (April).

WARD, C. F. J. and VAUGHAN, T. G.
Development of methods of calibration and testing gyroscopic instruments for GW applications, pp 139-148 (April).

WEAPONS
A simple method for the derivation of isolated and installed store loads, S. H. Goudie, pp 343-347 (Nov.).
Development of methods for calibration and testing gyroscopic instruments for GW applications, T. G. Vaughan and C. F. J. Ward, pp 139-148 (April).
Reliability testing for GW systems, P. D. T. O'Connor, pp 154-156 (April).
Testability — a military users point of view, Gp Capt G. F. Lawrence, Colonel S. T. Webber and Capt P. J. Witcombe, pp 132-139 (April).

WEBBER, Colonel S. T., WITCOMBE, Capt P. J. and LAWRENCE, Gp Capt G. F.
Testability — a military users point of view, pp 132-139 (April).

WIND TUNNELS
Heavy gas mixture for wind tunnel use, S. K. Al-Ani and E. J. Johnson, pp 237-240 (June/July).
Longitudinal vortices in wind tunnel wall boundary layers, S. Mokhtari and P. Bradshaw, pp 233-236 (June/July).

WINGS: SWEPT WINGS
Aircraft that fly backwards? The application for forward swept wings, Prof. D. Howe, pp 321-323 (Oct.).
Assessment of certain merits of FSW and effect of the sign of the sweep angles on the stressing of a wing structure, A. Soushi, pp 348-351 (Nov.).

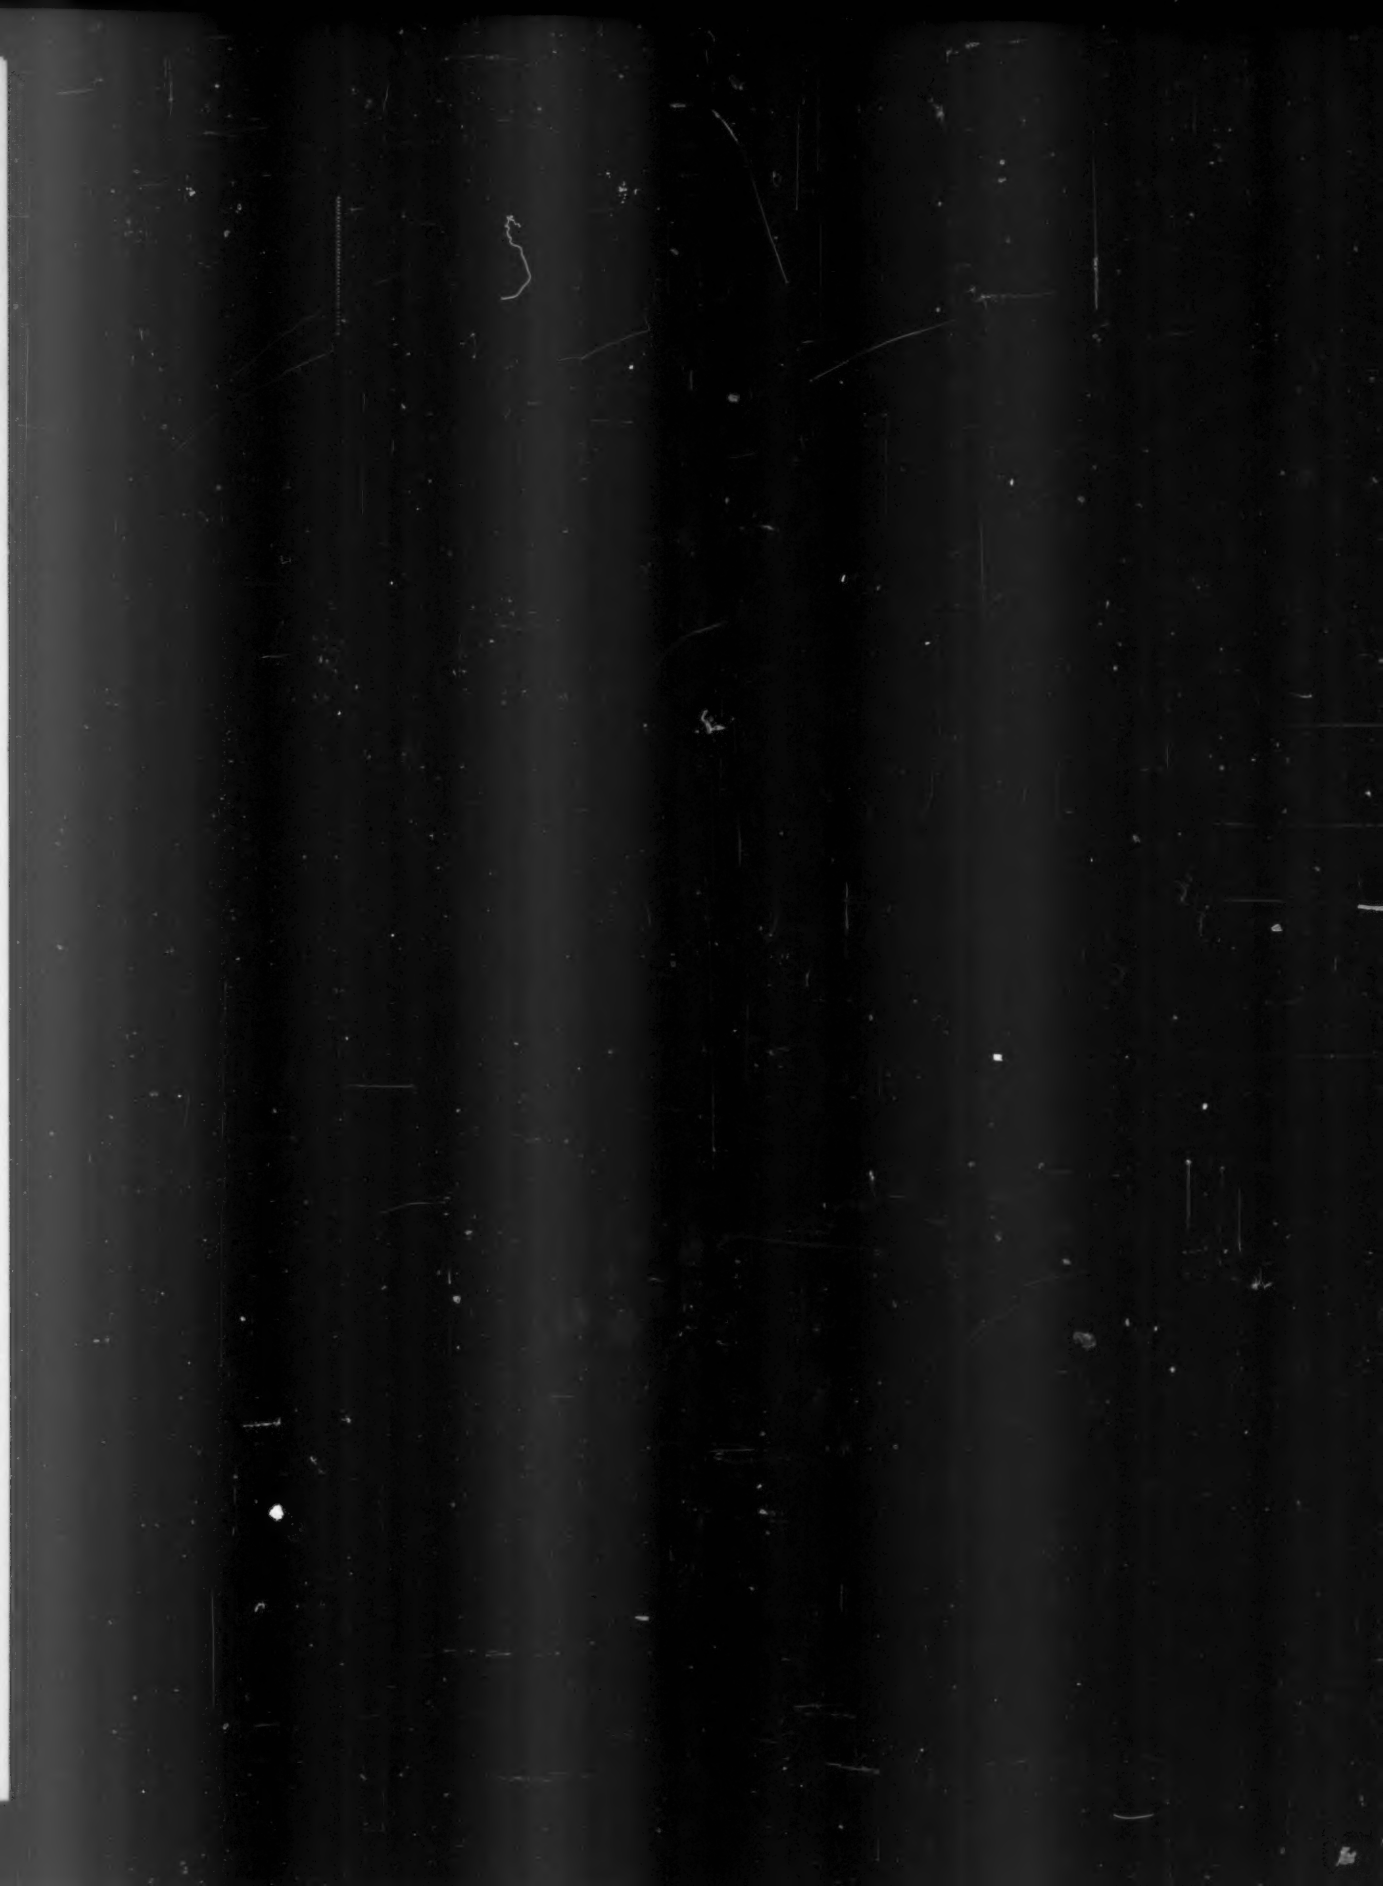
WINTER, K. G. and EAST, L. F.
The design of a 'Jet Catcher', pp 26-30 (Jan.).

WISE, D. J. K.
Developments in test software philosophy and techniques, pp 149-153 (April).

WITCOMBE, Capt P. J., LAWRENCE, Gp Capt G. F. and WEBBER, Colonel S. T.
Testability — a military users point of view, pp 132-139 (April).

WRIGHT, J. H., TONKIN, S. W. and CLEMENTS, R. R.
Digital simulation of counterspun nutation damper operation under non-ideal operating conditions, pp 277-285 (Aug./Sept.).

YEOMANS, D. G.
Choice of cabin capacity, pp 95-98 (March).

YOUNG, A. D.
Contribution to RAeS discussion evening, pp 225-228 (June/July).


YOUNG, P. H.
Advanced propulsion controls — a total system view, pp 165-172 (May).
